Add new property form

Edit Property form

The screenshot displays a web browser window with the 'Rentify' application running on a local host. The main content area features a form titled 'Edit Your Property'. The form includes the following fields and options:

- Property Title:** A text input field containing 'Elegant Apartment'.
- Property Description:** A text input field containing 'An elegant apartment with a stunning view.'
- Property Type (e.g., Apartment, House, Condo):** A dropdown menu with 'Apartment' selected.
- Location (City, State, Zip Code):** A text input field containing 'New York, NY 10001'.
- Bed Amount:** A text input field containing '29000'.
- Number of Bedrooms:** A text input field containing '3'.
- Number of Bathrooms:** A text input field containing '2'.
- Amenities (e.g., Swimming Pool, Gym, Parking):** A text input field containing 'Gym, Pool, Parking, Garden'.

Below the form fields is a small image of a modern house. At the bottom of the form, there are two green buttons: 'Choose Fields' and 'Update Property'. A link 'Go back to Property List' is located at the very bottom of the form.

The browser's address bar shows the URL: `localhost:3000/property/664f15f10f9a001acb096a1`. The Windows taskbar at the bottom indicates the system time is 16:41 on 23-05-2024, and the weather is 93°F Mostly sunny.
